**ProStrakan Group plc**

## **ProStrakan Announces Further Outlicensing Deals in Globalisation of Sancuso®**

**Galashiels, Scotland, 9 February 2009:** ProStrakan Group plc, the international specialty pharmaceutical company, today announces that it has signed two exclusive licence and supply agreements for certain countries in the Pacific Region and for Turkey for Sancuso®, ProStrakan's novel, patent protected transdermal patch for the prevention of chemotherapy-induced nausea and vomiting (CINV) in patients receiving chemotherapy for up to five consecutive days,.

Singapore-based Invida Pharmaceutical Holdings PTE Ltd will market Sancuso in Australia, Indonesia, the Philippines, Thailand and Vietnam, while Dubai-based NewBridge Pharmaceuticals FZ LLC will market Sancuso in Turkey. (ProStrakan has already partnered with NewBridge for the marketing of Sancuso in the Middle East and Africa.)

Under the terms of the agreements, ProStrakan will receive undisclosed upfront and milestone payments, subject to the achievement of certain approvals and sales targets. Invida and NewBridge will be required to purchase Sancuso directly from ProStrakan at a pre-agreed price.

Sancuso is a transdermal patch that delivers granisetron, an established 5HT<sub>3</sub> receptor antagonist, steadily into the bloodstream for up to seven days. Sancuso has been shown to be as efficacious as oral granisetron in preventing the side effects of nausea and vomiting in patients undergoing chemotherapy. Sancuso has the advantage of offering this protection through a single transdermal patch application, eradicating the need for repeated daily injections or having to swallow multiple pills on a repeated daily basis.

In September 2008, ProStrakan received approval from the US Food and Drug Administration (FDA) for Sancuso and the product was launched in the US in November 2008.

Commenting on today's announcement, Dr Wilson Totten, ProStrakan's Chief Executive, said:

"With US approval for Sancuso achieved, this product has caught the attention of pharmaceutical companies globally, validating our strategy of outlicensing it in territories that are non-core for ProStrakan. We have now constructed a significant potential ongoing revenue stream from Sancuso."

## **Invida Pharmaceutical Holdings**

Invida Pharmaceutical Holdings Pte. Ltd. is the holding company of Pharmalink, the leading pharmaceutical and healthcare commercialisation provider in Asia Pacific; and Inovail, an independently-managed specialty pharmaceutical company focused on market-driven innovation in the areas of dermatology, complementary oncology and female healthcare. Headquartered in Singapore, Invida's focus is in the Asia Pacific region, where it has offices in 13 countries. Invida's shareholders include Temasek Holdings, Quintiles Transnational and the Zuellig Group. More information about Invida can be found at [www.invida.com](http://www.invida.com).

## **NewBridge Pharmaceuticals**

NewBridge Pharmaceuticals ([www.nbpharma.com](http://www.nbpharma.com)) is a specialty pharmaceutical, biologics, and medical device company serving the Middle East, Africa, Turkey, and Caspian regions to address the unmet needs of diseases with high regional prevalence such as diabetes, obesity, oncology, cardiovascular diseases and other metabolic disorders. NewBridge in-licenses and commercializes FDA and EMEA approved therapeutics and devices.

Headquartered in UAE with Business Development in the US, NewBridge was founded in 2007 by Burrill & Company, a San Francisco-based Life Science Venture Capital, Private Equity, Merchant Banking and Media firm. NewBridge Pharmaceuticals is uniquely positioned as the partner of choice for pharmaceutical, biotechnology and device companies seeking to capture value from their products in these high growth emerging markets.
